The theme of this year is **“Inclusive Growth”** considering the immense need for overall development of state. It would provide an excellent platform for one-to-one interaction with resource provider and resource consumers to help us build a better Orissa.

This exhibition always provided an excellent opportunity to exhibitors for showcasing a wide range of industrial and consumer products. This year a new dimension has been added by organizing few **B2B meetings** with prospective National & International investors and buyers for various sectors. There are also plans for concurrent sessions on short skill able programs for common visitors to make them abreast with recent industrialization such as etiquette training, personality and gait training program.
